

## Redmine - Feature #18249

### Move DEFAULT\_MYPAGE to configuration file

2014-10-31 15:25 - Dariusz Kowalski

<b>Category:</b>	My page	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			

#### Description

I wanted to change elements of default my\_page site.

I have done this by editing:

```
app/controllers/my_controller.rb
```

and changing:

```
DEFAULT_LAYOUT
```

Constant

I think that it will be better to move it somewhere to configuration file.

It will be preserved eg. after update process

What do you think?

+1

Default blocks definition has been moved to lib/redmine/my\_page.rb in [r15930](#).
