

Redmine - Defect #18349

URL not rendered as a link when followed by a line break and another URL

2014-11-14 10:10 - Oleg Fedotkin

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	2.6.1	Affected version:	2.3.1
Resolution:	Fixed		
Description			
<p>Hello.</p> <p>I've encountered a problem, related to the redmine formatting. The thing is, that when I try to add issue description (or comment) with the following content:</p> <p>Any text https://name.domain.com/issues/91243 http://name.domain.com/00boUr-6IA1oXahp/</p> <p>The first link doesn't seem to appear like a link. It's just a plain text. As far as I can get it, this problem caused by a bug in the WikiFormatting auto_link! method. Speaking more precisely, I think that regex is not completely correct. So, is it really a bug or am I doing something wrong?</p> <p>My version of redmine is 2.3.1.stable, Postgres 9.3.5, ruby 1.9.3 stable and rails 2.2.2.</p>
