

Redmine - Feature #18391 "IF THEN" automatic workflow

2014-11-20 03:10 - yu xiaohang

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues workflow	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description A function made redmine's workflow goes automatically, for instance, we can create an "IF THEN" template in "Project"->"Configuration"->"IF+THEN": IF "Tracker Name" = "Feature" THEN Assigned it to "Jean-Philippe Lang" After this, workflow will follow this config without change status by users manually.

See plug in: <http://www.redmine.org/plugins/custom-workflows>
works great under 2.6, but is agree this should be intrgrated into Redmine.

Hello,

Am very interested in this function, but cant seem to find where Project"->"Configuration"->"IF+THEN is...can you please guide me? I am creating workflows for processes but need this to ensure automatic change of assignee upon change of status.

Would appreciate your quick feedback.

Thanks

This functionality is not available yet. See plugin link above for a possible alternative.

I really would like to have this plugin integrated as Redmine function. As I need to keep my redmine updated to the latest stable version, I can not count on a plugin.
