Description

```
Ordered lists look like this at the moment:

1. Masteritem 1
   1. subitem 1
   2. subitem 2
   3. subitem 3
2. Masteritem 2

It would be nice if they would look like this:
1. Masteritem 1
   1.1. subitem 1
   1.2. subitem 2
   1.3. subitem 3
2. Masteritem 2
```

Of course, this should be configurable globally and per project.

I don't think this should be a global setting, but another wiki-syntax
f.e.

```
# item 1
## subitem 1.1
## subitem 1.2
## subitem 1.3
# item 2
#.# subitem 2.1
#.# subitem 2.2
#.# subitem 2.3
```

gives

```
1. item 1
   1. subitem 1.1
   2. subitem 1.2
   3. subitem 1.3
2. item 2
   2.1. subitem 2.1
   2.2. subitem 2.2
```

```
    2.3. subitem 2.3
```

Wim, this syntax doesn't work.
