Revision 13670 - 2014-11-29 16:16 - Jean-Philippe Lang

Localisation not set correctly on authenticity token errors (#18499).

Patch by Felix Schäfer.

Revision 13800 - 2014-12-26 11:42 - Jean-Philippe Lang

Merged r13670 (#18499).

History

#1 - 2014-11-29 14:07 - Felix Schäfer

- File 18499.patch added

This error was discovered on [Planio](#). The attached patch fixes the problem and adds a test to make sure it stays that way.

Maybe `set_localization` should even be called at the end of `logged_user=` to make sure a user change also changes the locale? (I haven't tested that though).

#2 - 2014-11-29 16:39 - Jean-Philippe Lang

- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.6.1
- Resolution set to Fixed

Patch committed in r13670, thanks.

Not sure it would improve things, most `#logged_user=` are followed by a redirect. And `#set_localization` would still have to be called in a few places.

#3 - 2014-11-29 21:51 - Felix Schäfer

Thanks for the quick merge!

#4 - 2014-12-01 10:59 - Denis Savitskiy

Pity, it doesn't help in 2.6.0develop

#5 - 2014-12-26 11:42 - Jean-Philippe Lang

- *Status changed from Resolved to Closed*
