

Redmine - Defect #18584

Custom fields of user format reset when a user is locked

2014-12-05 22:29 - Cory Riddell

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:		Affected version:	2.4.2
Resolution:	Fixed		
Description			
Terrible title, but I'll try to explain with our specific problem.			
We created a custom field named "Tester" and its format is "User". When somebody tests an issue that we've marked resolved , they set themselves as the tester.			
This works very well for us because I can search for all the issues for which I am a tester. It fails though, when an employee leaves the company and we lock the user account. From that point on, any edits to the bug will reset our custom Tester field and make it empty.			
We are currently using v2.4.2 or Redmine.

Revision 13722 - 2014-12-06 12:19 - Jean-Philippe Lang

Adds a test for #18584.

History

#1 - 2014-12-06 12:21 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Resolution set to Fixed

This was fixed in 2.5 while refactoring custom field formats. A test is added in [r13722](#) to make sure that any user that was assigned to a custom field is proposed even if it was locked or removed from the project.
