

## Redmine - Defect #18654

### Custom field is rendered, even if its value is empty (for multiple)

2014-12-16 13:37 - Andriy Lesyuk

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Philippe Lang	<b>% Done:</b>	0%
<b>Category:</b>	Custom fields	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.0.0	<b>Affected version:</b>	2.6.0
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>Redmine checks, if the value is available for the custom field, as follows: if custom_value.value.present?</p> <p>But for multiple custom fields (e.g., lists, that allow selecting multiple values), the original nil value is replaced with [nil](<i>not sure where exactly</i>). So, [nil].empty? returns false and the custom field gets rendered.</p> <p>This issue affects 3.0.x and 1.4.x versions of Redmine.</p> <p>P.S. Can be solved by monkey-patching `CustomFieldValue` as follows: alias_method_chain :value, :extended</p> <p>...</p> <pre>def value_with_extended   value = value_without_extended   if custom_field.multiple? &amp;&amp; value.present? &amp;&amp; value.size == 1 &amp;&amp; value.first.nil?     nil   else     value   end end</pre>
