Hello,

Your patch doesn't apply to redmine-core but to a plugin: redmine_smile

watchers and journals are already available per issues via the request

```
GET /issues/[id].[format]?include=journals,watchers
```

Can you describe why do you want to add this feature ?

Here is the wiki's documentation
Rest_Issues
Rest_IssueJournals

You're right I will provide a patch for redmine soon.

Our aim is simple : get the journals and watchers of a list of issues, without to have to do a request by issue.

Here is a correct patch, with a bug fix about restricting private notes.

Can you take a look to it ?

Thanks in advance.

Hi, can you take a look at this simple patch ?

#6 - 2017-02-11 05:33 - Toshi MARUYAMA

Could you add tests?

#7 - 2017-02-14 10:26 - Jérôme BATAILLE

Hi Toshi, yes, I will do that.
