<b>Resolution:</b>	
<b>Description</b>	
<p>It would be nice to have a grouping for fields in the issue/new_issue page. A kind of table or section to group similar functional fields.</p> <p>One possible scenario could be to add a text box into <b>Admin » Custom fields » Issues » New custom field</b>, so that all non-empty would be grouped while rendering Issue page.</p> <p>I have found something similar here: message#44663</p> <p>your thoughts? :)</p>
