

## Redmine - Defect #1890

### LDAP Filter can't have spaces

2008-09-11 20:21 - Ryan G

<b>Resolution:</b>	Fixed		

**Description**

ruby-net-ldap doesn't like the ldap filter to contain spaces. The input for LDAP attributes should be check for this and other requirements if necessary. The ldap search function fails silently if there is a space.

Ex. (which happened to me)

I copied and pasted the sAMAccountName attribute into the login field, I didn't notice but I grabbed the space at the end also. I couldn't get LDAP auth to work b/c the filter was set to "sAMAccountName =ryan.gibbons" . Even a simple .trim() fuction would fix this (not sure if ruby has that), but I think check the input for invalid LDAP filter characters wouldn't be a bad thing.

I am running [r1784](#) from svn.

#### Associated revisions

##### Revision 1894 - 2008-09-21 15:28 - Jean-Philippe Lang

Strip LDAP attribute names before saving (#1890).

##### Revision 1898 - 2008-09-22 20:33 - Nicolas Chucho

r18645@gaspard (orig r1887): jplang | 2008-09-20 16:07:52 +0200  
Fixed: Roadmap crashes when a version has a due date > 2037.  
r18646@gaspard (orig r1888): jplang | 2008-09-21 10:54:02 +0200  
Fixed: invalid effective date (eg. 99999-01-01) causes an error on version edition screen.  
r18647@gaspard (orig r1889): jplang | 2008-09-21 10:54:50 +0200  
Fixes VersionTest class.

#### History

##### #1 - 2008-09-21 15:25 - Jean-Philippe Lang

- Status changed from New to Resolved
- Target version set to 0.8
- Resolution set to Fixed

Attribute names are now stripped ([r1894](#)).

I think check the input for invalid LDAP filter characters wouldn't be a bad thing

I agree but I'm not sure what characters should be allowed. Maybe /^[a-zA-Z0-9\.-]+\$/ ?

**#2 - 2008-11-11 15:28 - Jean-Philippe Lang**

- *Category set to Administration*

- *Status changed from Resolved to Closed*

Fill a request for LDAP attribute validation if needed.
