Redmine - Defect #18940

Filter by custom user field didn´t work

2015-01-23 14:03 - Henry Auffahrt

Category:	Custom fields		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	2.5.3

Description

I created a custom field in our tickets. This is a custom-user-field. So you can choose all people in a specific role.

Now i want to use this custom field in my global ticket list as a filter. This didn't work, i can only choose myself.

Maybe this is a because of the role concept from redmine? But we really need a functionality. If i add a user through firebug it works nicely.

Please try this patch: #9445#note-20

It works for me but I would like some more people to test it.
