

Redmine - Defect #19002

Typos in descriptions of buildin macros (seen through `{{macro_list}}` output)

2015-02-02 17:14 - Mario Kishkin

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Website (redmine.org)	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.1
Resolution:	Fixed		
Description			
Hello,			
On the page http://www.redmine.org/projects/redmine/wiki/RedmineTextFormatting it says that for including a wiki page one should use this syntax:			
<pre>!{{include(Foo)}}</pre>			
This does not work. But without '!' sign it does:			
<pre>{{include(Foo)}}</pre>			
I think it's a typo.			
We use Redmine 2.5.1, but I do not see anything considering include functionality in the changelogs from 2.5.1 up to 2.6.1.			
Thanks!

History

#1 - 2015-02-08 05:46 - Mischa The Evil

- Subject changed from *Typo in Wiki Formatting docs* to *Typos in descriptions of buildin macros (seen through `{{macro_list}}` output)*
- Category changed from *Documentation* to *Text formatting*
- Status changed from *New* to *Resolved*
- Assignee set to *Jean-Philippe Lang*
- Target version set to *2.6.2*
- Resolution set to *Fixed*

This actually has been a long-standing - but never noticed/reported - issue (consisting of escaping typos, I think, as the prepended exclamation mark is used to escape textile markup) within the macro descriptions as [RedmineTextFormatting](#) is using the `{{macro_list}}` macro to display the list of buildin macros and their descriptions.

This has been fixed in [r13955](#) (which also fixes [#18961](#)), which will be included in [2.6.2](#).

@Jean-Philippe: I'll assign this issue to you, the same way as you did with [#18961](#), since [r13955](#) still needs to be merged.

#2 - 2015-02-18 12:38 - Jean-Philippe Lang

- Category changed from *Text formatting* to *Website (redmine.org)*
- Target version deleted (*2.6.2*)

Thanks for pointing this out. This will be fixed when I'll upgrade redmine.org.
