

Redmine - Defect #19092

CSV Export and general csv separator

2015-02-12 09:30 - Alberto Martinelli

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	2.4.3
Resolution:	No feedback		
Description			
<p>Hi everyone, this report is for redmine 2.4.3.stable (I've not found in any mention of this problem in changelog for 2.4.x, 2.5.x or 2.6.x)</p> <p>For CSV Export I've found a bug when users uses redmine general_csv_separator in subject or description.</p> <p>Steps to reproduce problem (I assume that general_csv_separator used is ;)</p> <ol style="list-style-type: none">1) open a new issue2) as subject use test;1 and description test;13) save issue4) export as csv5) open csv with excel, you don't see inserted test or description <p>To solve this problem, I suggest together try to follow best practices with CSV (starting for example from Wikipedia). Following Wikipedia links I've found this (see 6):</p> <pre>6. Fields containing line breaks (CRLF), double quotes, and commas should be enclosed in double-quotes. For example: "aaa", "b CRLF bb", "ccc" CRLF zzz,yyy,xxx</pre> <p>so i propose to change redmine csv export when a field there is csv separator, adding double-quotes, what do you think?</p> <p>Note: I know that I can change my csv separator settings in locale, for example using another separator as or \$, but this is not solving this issue, because users can enter anything in any field.</p> <p>Note2: could please admins add a new category for issues related to CSV export?</p> <p>Thank you</p>			

History

#1 - 2015-02-12 13:44 - Toshi MARUYAMA

- File excel2013-ja.png added

- Status changed from New to Needs feedback

I cannot reproduce.

```
$ hg parent --template='{branch}:{svnrev}\n'
2.6-stable:13884
$ ruby --version
ruby 1.8.7 (2014-01-28 patchlevel 376) [x86_64-linux]
```

Japanese separator is ";" as same English.

CSV file:

```
#,Tracker,Status,Priority,Subject,Assignee,Updated,Description
7,Bug,New,Normal,Korean Translation,"",02/12/2015 09:23 PM,"new line
new line
new line"
```

Excel 2013:

#2 - 2015-02-12 13:50 - Toshi MARUYAMA

```
$ hg parent --template='{branch}:{svnrev}\n'  
2.6-stable:13984  
$ ruby --version  
ruby 1.8.7 (2014-01-28 patchlevel 376) [x86_64-linux]  
$ ruby script/rails console  
Loading development environment (Rails 3.2.21)  
1.8.7-head :001 > csv_string = FCSV.generate(:col_sep => ';') do |csv|  
1.8.7-head :002 >     csv << ["ddd\neeee", "fffff"]  
1.8.7-head :003?>   end  
=> "\"ddd\neeee\";fffff\n"
```

#3 - 2015-02-12 13:52 - Toshi MARUYAMA

```
$ ruby --version  
ruby 1.9.3p551 (2014-11-13 revision 48407) [x86_64-linux]  
$ irb  
1.9.3-p551 :001 > require 'csv'  
=> true  
1.9.3-p551 :002 > csv_string = CSV.generate(:col_sep => ';') do |csv|  
1.9.3-p551 :003 >     csv << ["ddd\neeee", "fffff"]  
1.9.3-p551 :004?>   end  
=> "\"ddd\neeee\";fffff\n"
```
