

## Redmine - Defect #19578

### Issues reports table header overlapping

2015-04-09 12:52 - Antoine Duranel

<b>Status:</b>	Closed	<b>Start date:</b>

<b>Target version:</b>	3.3.6	<b>Affected version:</b>	2.4.0
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>Hi,</p> <p>After migrating from Redmine 1.2.1 to 3.0.1, the Issues &gt; Summary &gt; Reports details page does not have the same behaviour for the table header overflow.</p> <p>We use around 20 "Issues statuses" in our Redmine instance and with this latest Redmine version, headers overlap to fit in the window size which make them unreach (see attached screenshots).</p> <p>This change might have been done before the Redmine 3.0.1 release but I did not find the entry about it in Changelogs.</p> <p>Thanks, Antoine</p>

#### Associated revisions

##### Revision 17108 - 2017-12-11 03:19 - Go MAEDA

Fix: Overlapping text in table header on issues reports page (#19578).

Patch by Go MAEDA.

##### Revision 17109 - 2017-12-11 04:15 - Go MAEDA

Merged r17108 to 3.4-stable (#19578).

##### Revision 17110 - 2017-12-11 04:17 - Go MAEDA

Merged r17108 to 3.3-stable (#19578).

#### History

##### #1 - 2015-04-09 15:15 - Leonel Iturralde

I confirmed this behavior. It is caused by

```
table.issue-report {table-layout:fixed;}
```

source:trunk/public/stylesheets/application.css@14155#L173

If I change it to `table-layout:auto` . I can see all the content.

You can fixed this by creating a custom theme to change this style. Just while waiting for a patch.

**#2 - 2015-04-09 15:39 - Antoine Duranel**

Thanks, it works fine.

Thank you for the workaround.

But changing table-layout property from fixed to auto causes other problem. Please see the screenshots blow. The right end of the table is not displayed (actually there are columns "status nine", "Open", "Closed", "Total"). And columns are not aligned in issues summary page.

**Before fix:**

table-layout-fixed@2x.png

**After:**

table-layout-auto-report-detail@2x.png

table-layout-auto-summary@2x.png

I think adding white-space: nowrap to th elements is better solution.
