

Redmine - Patch #19622

Filter previous *status / assigned_to / priority / tracker* [+ date ranges]

2015-04-14 14:30 - Jacek Grzybowski

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Description			
<p>This patch adds a functionality of filtering issues by their previous status / assigned_to / priority / tracker values. It is obtained by making additional join queries to Journals and JournalDetails tables if needed. It also gives the possibility to select a date range for each of them. Filters are selectable from standard issue filter select box and are placed under History optgroup.</p>
