

Redmine - Defect #19679

One user reseave values in head of other users

2015-04-22 10:59 - Petr Losa

Status:	Needs feedback	Start date:	
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.1
Resolution:			
Description			
<p>We have a problem with rewrite data if one user save and other user resave data.</p> <p>Scenario:</p> <ol style="list-style-type: none">1. First user create new issue. Set Status to new and set Done to 0%2. Second user in diferent browser on diferent computer open this issue and nothin do it, only open this issue.3. The first user change Done from 0% to 20% and save it.4. Second user perform refresh (F5) in browser. After refresh update Version from 1.0 to 1.2 and there is the problem. With the change Version is changed also Done from 20% back to 0% <p>We simulated this problem several times. I know, we have version 2.5.1, is this bug repaired in newer version?</p>
