

## Redmine - Defect #19914

### Conflicting Fields Permission X Workflow X Subtask

2015-05-21 20:36 - Enderson Maia

<b>Status:</b> New	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Issues workflow	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b> 2.6.0
<b>Resolution:</b>	
<b>Description</b>	
<p>I have a particular situation where I can't close a Issue that has some subtasks.</p> <p>In the Issue Workflow, I have "New" -&gt; "In Progress" -&gt; "Closed", and you can't go from New -&gt; Closed without passing through "In Progress".</p> <p>I have a "Field permission" configuration where the field "Due date" is Required, then the status is "In Progress".</p> <p>I implemented this configuration when having some issues already in the state "In Progress" with a parent task.</p> <p>A parent task's "Due Date" is the last date of its subtasks.</p> <p>My situation is I have a Parent issue in "New" state , with all subtasks closed and without a "Due Date". When I try to put my parent task "In Progress" so I can then, "Close" it. I'm not allowed 'cause I need to put a "Due date" in it, and I can't fill a due date in a Parent task.</p> <p>The Redmine version I'm using in production is 2.6.0-stable.</p> <p>Let me know if you need more information.</p>
