

Redmine - Defect #20127

The description column in the issues table is too short (MySQL)

2015-06-18 17:42 - Future Link Corporation pkgsrc team

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	3.4.0	Affected version:	3.0.3
Resolution:	Fixed		
Description			
The description column in the issues table has a data type of TEXT, which has a limit of 65k. We recommend changing this data type to LONGTEXT, as was done for the comment field in the changesets table. As you've done this for the repository commits (#16143) already, please make this change. Otherwise, Redmine throws a 500 error on creating issues with long descriptions.

[Etienne Massip](#) wrote on [#7779#note-1](#):

PostgreSQL stores issue description in a column with text data type which length is unlimited, so adding a limit would be some kind of regression to PG users.
