

## Redmine - Feature #20187

### Set create date for Issue throw REST API

2015-06-27 19:26 - Alexey Lustin

<b>Status:</b> New	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> REST API	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
<p>For serial migration from another PM system (or master-master integration) I suggest add ability to set dates for issues and their logs\journals in the past on the <b>create/update</b> issue methods, and in the <b>issue journal update</b> through <b>REST API</b></p> <p>What i mean ? For example:</p> <pre>POST /issues.xml &lt;?xml version="1.0"?&gt; &lt;issue&gt;   &lt;project_id&gt;1&lt;/project_id&gt;   &lt;subject&gt;Example&lt;/subject&gt;   &lt;priority_id&gt;4&lt;/priority_id&gt;   &lt;created_at&gt;2001-01-01&lt;/created_at&gt; &lt;/issue&gt;</pre> <p>Or similar like X-Redmine-Switch-User (setting it in HTTP Headers)</p> <pre>X-Redmine-Override-Session-TimeStamp: 2001-06-27T17:18:26Z</pre>
