Associated revisions

Revision 14450 - 2015-07-25 08:44 - Jean-Philippe Lang

Fixed that members without view issues permission are able to list issues on public projects if the non member role has the permission (#20206).

Revision 14453 - 2015-07-25 10:54 - Jean-Philippe Lang

Merged r14450 (#20206).

History

#1 - 2015-07-04 10:41 - Jean-Philippe Lang

This happens because your "Non member" role has the "View issues" permission.

Issue.visible and Issue#visible? doesn't behave the same in this particular case. Issue.visible considers the non member permissions even for members, but Issue#visible? does not. I think that members should not have less permissions than non members and behaviour should be aligned on the Issue.visible scope.

#2 - 2015-07-25 10:54 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Resolution set to Fixed

#3 - 2015-07-25 10:56 - Jean-Philippe Lang

- Subject changed from "View all issues" lists issues nevertheless role has no "View Issues" to Members w/o view issues permission are able to list issues on public projects if the non member role has the permission
