

## Redmine - Patch #2029

### New option that makes emails plain text.

#### Description

This patch add a new option to system-wide configuration. If the option is enabled, emails that redmine sends become text/plain.

Some of archaic hackers --for example, the ruby core team-- still hate HTMLs in email. So [ruby issue tracking system](#) needs this feature.

add plain text option for mail #2029

#### History

##### #1 - 2008-10-14 15:47 - Ollivier Robert

+1, it is nice to have an option for that.

##### #2 - 2008-10-16 07:46 - James Turnbull

This is a great feature - it's something we've been after for a while - be nice if this was a per user feature - some of our users would prefer HTML and some plain text.

##### #3 - 2008-10-16 13:18 - Nicolas Chucho

I've committed the patch with slight modifications in r1932.

For the moment I've no time to add a per user option.

##### #4 - 2008-10-16 21:13 - Jean-Philippe Lang

- Status changed from 7 to Closed

James, per user setting is not that simple since a single email is sent for all the notified users.  
I close this ticket since the patch is committed but feel free to submit a feature request :-)
