

Redmine - Defect #20454

Mail handler: unwanted assignment to a group occurs

2015-07-31 15:45 - Alexander Ryabinovskiy

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	3.0.5	Affected version:	3.1.0
Resolution:	Fixed		

Description

Environment:

Redmine version 3.1.0.stable
Ruby version 2.0.0-p645 (2015-04-13) [i386-mingw32]
Rails version 4.2.3
Environment production
Database adapter SQLServer

I turned on "Allow issue assignment to groups" option in settings.

My project has 3 members: user1, user2 and group1.

1. I created an issue from email, not assigned:

```
rake redmine:email:receive_pop3 unknown_user=accept host=comp.local port=110 username=redmine@comp.local  
password=XXX allow_override=project,tracker,priority project=test
```

2. I received email notification from Redmine about that issue:

Issue #1198 has been reported by Ryabinovskiy Alexander.

Work #1198: test issue from email

- Author: Ryabinovskiy Alexander
- Status: New
- Priority: Normal
- Assignee:
- Category:
- Target version:

Test issue description

3. I replied to that email with quoting, my comment was added to issue, but "**Assignee**" was changed to group1 !

Updated by Ryabinovskiy Alexander less than a minute ago

Assignee set to group1

Comment Edit

Test comment 1

Issue #1198 has been reported by Ryabinovskiy Alexander.

Work #1198: test issue from email

Author: Ryabinovskiy Alexander

Category:

Test issue description

Also, Status, Priority, Target version was parsed from email, but I used only allow_override=project,tracker,priority option!

Fixed in r14499.

Please open a separate ticket for the other issue.
