Associated revisions

Revision 17026 - 2017-11-25 14:51 - Go MAEDA

Make gantt columns resizable (#20481).

Contributed by Mizuki ISHIKAWA.

History

#1 - 2015-08-31 05:49 - Toshi MARUYAMA

- Subject changed from Gantt to Gantt: right and left resizable panel

#2 - 2015-09-28 13:34 - Alessandro Zucchi

Could be OK also wrap the text if resize is a problem.

#3 - 2017-07-12 06:46 - Mizuki ISHIKAWA

- File change_to_right_and_left_resizable_panel.patch added

I wrote a patch to implement this feature. The subject column in gantt will be resizable by this patch.

It supports only desktop screen for now (mobile screen is not supported). But I think it is useful for many people even without supporting mobile screen.

#4 - 2017-07-12 08:21 - Alessandro Zucchi

Great!

Have you idea when and if will be committed on a stable version ?

Alessandro

#5 - 2017-07-12 09:21 - Go MAEDA

- File 20481-demo.gif added

- Target version set to 4.1.0

I think this is great UI improvement. Please see this demo: [20481-demo.gif](#)

People sometimes complain about cropped subjects in gantt. This feature can resolve such problem.

#6 - 2017-07-13 05:52 - Hirofumi Kadoya

+1

#7 - 2017-07-13 05:57 - Yasukazu Nagatomi

Great!
This idea is very good.

#8 - 2017-07-13 08:45 - Akipii Oga

+1
The deeper hierarchy tickets, the more you want to expand the panel, it is a very desirable feature.

#9 - 2017-07-13 10:20 - Go MAEDA

- Related to Feature #8491: [Gantt] Wrap words in issue names added

#10 - 2017-07-25 10:27 - Mizuki ISHIKAWA

- File change_to_right_and_left_resizable_panel_v2.patch added

There were some minor problems with the previous version, so I fixed it.

#11 - 2017-07-28 07:53 - Go MAEDA

- Blocks Feature #26409: Show assignee on gantt added

#12 - 2017-09-01 15:01 - Mike Daniels

Hello Everyone. I can't seem to apply the patch. I am very new to redmine. I am getting a

```
can't find file to patch at input line 5
Perhaps you used the wrong -p or --strip option?
The text leading up to this was:
```

```
-----
|diff --git a/app/views/gantts/show.html.erb b/app/views/gantts/show.html.erb
|index 9a74f72ba..9703e962e 100644
|--- a/app/views/gantts/show.html.erb
|+++ b/app/views/gantts/show.html.erb
|-----
```

```
File to patch: ^C
```

Please let me know if you can help

#13 - 2017-09-01 15:04 - Mike Daniels

Note: I did the following

```
cd /var/www/redmine
mkdir patches
cd patches/
wget http://www.redmine.org/attachments/download/18826/change_to_right_and_left_resizable_panel_v2.patch
cd .. -- Now I am back in the /var/www/redmine directory
sudo patch -p0 > /var/www/redmine/patches/change_to_right_and_left_resizable_panel_v2.patch
```

```
sudo patch -p0 > /var/www/redmine/patches/change_to_right_and_left_resizable_panel_v2.patch
```

Please change the command as follows.

```
sudo patch -p1 < /var/www/redmine/patches/change_to_right_and_left_resizable_panel_v2.patch
```

#16 - 2017-09-04 09:05 - Mike Daniels

Please change the command as follows.
[...]

Thank you. I did this and it worked. Now I am trying to install another one of your patches and having a problem. I will write you there.

#17 - 2017-11-25 15:00 - Go MAEDA

- Status changed from New to Closed
- Target version changed from 4.1.0 to 4.0.0

Committed in the trunk.
Thank you for improving Redmine.

#18 - 2017-11-25 16:42 - Go MAEDA

- Assignee set to Go MAEDA
- Resolution set to Fixed

#19 - 2017-11-27 09:51 - Go MAEDA

- Related to Feature #17660: Gantt chart-increase column size of issue description added

#20 - 2019-04-26 12:36 - Felix Gliesche

- File before.png added
- File after.png added
- File 0001-Fix-gaps-in-resizable-gantt-chart.patch added

I found a small problem, after this patch has been applied. There is some space between the left and right column of the gantt chart:

before.png
I am attaching a patch, that fixes this patch:

after.png
This functionality is a great addition to the UI btw. Thanks!

Hi Felix, could you please help make such patch for Redmine 3.3.3? I tried to apply `change_to_right_and_left_resizable_panel_v2.patch` to my Redmine 3.3.3, but seems the files content have been changed, and it can't be patch directly even though I modified the file path in patch file to be corresponding with the path of my redmine installed. then, I tried modified my redmine files' code according to the modification content in this patch file, and restart redmine(subversion,mysql, apache), but left side of gannt is still not resizable. seems this modification is not suitable for Redmine 3.3.3.
