- Description updated

##### #3 - 2015-08-31 21:24 - Benedikt Huss

Inline styles won't solve the problems on Outlook. Outlook still uses the Word html parser, and max-width is not supported on 2007/2010/2013 and even not on 2016. You can see all supported css properties here: <https://www.campaignmonitor.com/css/>

##### #4 - 2015-09-01 02:13 - Toshi MARUYAMA

- Target version deleted (3.2.0)

- Resolution deleted (Fixed)
