Description

A user, member of the project X with manager role (every issue-related permissions set on), create a issue and validate it. Back on the created issue, the user want to edit a typo in the issue body: **no "more" link visible**, no link to edit.

If logged as admin, can't see the "more" link, too.

Conf: Ruby 1.8.6, Rails 2.1.0, Redmine trunk ([r1941](#))

History

#1 - 2008-10-22 16:30 - Thomas Lecavelier

- Status changed from New to Closed

- Assignee deleted (Jean-Philippe Lang)

Closing... A smart talk with Mischa show me that link was displaced in front of "change properties" of update panel for a while...
