

Redmine - Feature #20800

Add "issue name" when listing time_entrise or getting a time_entry by REST API

2015-09-22 05:34 -  

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: REST API	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description	
<p>when listing time_entries or getting a time_entry by REST API, the issue name won't show.</p> <p>for example:</p> <pre>GET /time_entries.xml</pre> <pre><time_entry> <id>4</id> <project id="3" name="project"/> <issue id="4"/> <user id="127" name="username"/> <activity id="9" name="design"/> <hours>1.0</hours> <comments>none</comments> <spent_on>2015-09-22</spent_on> <created_on>2015-09-22T01:40:26Z</created_on> <updated_on>2015-09-22T01:40:26Z</updated_on> </time_entry></pre> <p>It would be nice to add the issue name in REST API, in this way, we needn't call another API to get the issue name.</p>	

History

#1 - 2018-03-05 11:53 - Francesco Abeni

- File *issueName.patch* added

The attached patch adds issue subject to **time_entries** index.

Tested on Redmine 3.2 but it should be ok on 3.3 and 3.4 as well.

#2 - 2019-06-23 23:43 - Maxim Krušina

Plz can we merge it into stable?
