

Redmine - Defect #20910

Hierarchy in TOC is not preserved when Wiki index is exported to HTML

2015-10-06 12:13 - Serguei Tarassov

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee: Go MAEDA	% Done: 0%
Category: Wiki	Estimated time: 0.00 hour
Target version: 4.1.0	Affected version: 2.4.2
Resolution: Fixed	
Description When exporting HTM from Wiki (from index page) the resulting document has following errors : <ul style="list-style-type: none">- TOC items hierarchy is not supported, only one-level list is exported- images links are incomplete with "/redmine/xxx". Full path to images is expected to see them.

- File 0001-Change-the-file-path-of-html-image-to-be-exported-to.patch added

- File 0002-Nest-the-exported-html-table-of-contents.patch added

I wrote a patch to solve these two problems.

(It may be better to divide the issues...)

| *images links are incomplete with "/redmine/xxx". Full path to images is expected to see them.*

☐☐ → attachment:0001-Change-the-file-path-of-html-image-to-be-exported-to.patch

| *TOC items hierarchy is not supported, only one-level list is exported*

☐☐ → attachment:0002-Nest-the-exported-html-table-of-contents.patch

By applying the patch, I think the exported HTML will be easier to see.

```

The patch is identical to #16446, which I have just committed as r17229. Let's discuss the patch 0002 on this issue.

```

I did not notice that the same patch already exists.
I am glad that the image link has been changed to a Full path.
Patch 0002 changes the heading of exported wiki HTML as follows. (Nest wiki titles)

before	after
before.png	after.png

#7 - 2018-03-28 09:33 - Go MAEDA

- File deleted (0001-Change-the-file-path-of-html-image-to-be-exported-to.patch)

#8 - 2018-03-28 09:34 - Go MAEDA

- Target version set to Candidate for next major release

#9 - 2019-05-06 15:59 - Go MAEDA

- File 20910-v2.patch added
- Target version changed from Candidate for next major release to 4.1.0

Updated the patch for the current trunk.

#10 - 2019-05-09 16:41 - Go MAEDA

- Subject changed from Wiki HTML export bugs to Hierarchy in TOC is not preserved when a Wiki page is exported to HTML

#11 - 2019-05-09 17:19 - Go MAEDA

- Subject changed from *Hierarchy in TOC is not preserved when a Wiki page is exported to HTML* to *Hierarchy in TOC is not preserved when Wiki index is exported to HTML*
- Status changed from *New* to *Closed*
- Assignee set to *Go MAEDA*
- Resolution set to *Fixed*

Committed the patch with slight changes. Thank you for the fix.
