

Redmine - Defect #2094

Preview during Update of an existing Issue / Description Change

2008-10-26 21:32 - Karl Heinz Marbaise

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Duplicate	
Description	
<p>If i create a new issue with some descriptonal text in there. After the creation i realized that i have missed to add some other information so i would do this using the Update Button and selecting more and changing the description text. Now i want to see how it looks like. I use the Preview (right to the Create Button) but the result was no changes are shown in the top area where the previously created issue is shown nor in the bottom Preview area anything is shown.</p>

History

#1 - 2008-10-27 13:28 - Jean-Philippe Lang

Actually, only the notes are previewed.

#2 - 2008-10-27 14:09 - Karl Heinz Marbaise

Hi Jean-Philippe,

| *Actually, only the notes are previewed.*

Ok. I thought the description of the Issue would have been previewed too...so that might be a feature for other releases....

Thanks.

Karl Heinz Marbaise
