Resolution:	Invalid	**Affected version:**	3.1.1

Description

Hi,

I just find that bitnami redmine's new version is 3.1.1. And I am still using 2.5 version.
Then I install the 3.1.1 version and export sql file from 2.5 version.
In 3.1.1 version I import the sql file and restart all services of bitnami redmine, but it cannot work.
How to do?
