

Redmine - Defect #21218

Text with apostrophe (') followed by italic does not render

2015-11-11 10:57 - StudioMiazzo StudioMiazzo

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	3.1.1
Resolution:			
Description			
When formatting characters are used with no spaces before them, (e.g. <code>_italic text_</code>), the format is not applied.			
See the following examples			
<ul style="list-style-type: none">• text without a space: <code>some_text_</code>, <code>some*text*</code>• text with a space in between: <code>some text</code>, <code>some text</code>			
This prevents us from using the wiki to enter some simple italian text (for example, <code>"l'albero"</code>) without leaving an aesthetically unpleasant space in between (<code>"l' albero"</code>)
