Description

Hi,

I think the new Gravatar feature is great. Anyway, when I enter my email address in my profile using caps letters (
John.Doe@hollywood.com), the gravatar_id is invalid and my gravatar is not fetched.
The gravatar_id generation shouldn't be case sensitive.

Thanks
Philippe

Associated revisions

Revision 1988 - 2008-11-07 15:35 - Jean-Philippe Lang

Email address should be lowercased for gravatar (#2145).
