

Roll back copied issue status when tracker change

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:		Affected version:	
Description			
When coping an issue			
1. Click "Copy"			
2. Change status "status A" -> "status B"			
3. Change tracker "tracker A" -> "tracker B"			
4. Status is automatically roll back to "status A"			
I do not know if it is a bug or not.			
Environment:			
Redmine version		3.2.0.stable	
Ruby version		2.2.3-p173 (2015-08-18) [x86_64-linux-gnu]	
Rails version		4.2.5	
Environment		production	
Database adapter		Mysql2

#2 - 2016-02-16 05:36 - yoshinobu yoshida

excuse me, answer please...

#3 - 2016-02-16 06:06 - Go MAEDA

#4 - 2016-02-16 07:02 - yoshinobu yoshida

It reproduced at the following link.
After changing the status to "New", status when you change the tracker to "Feature" or "Support" will be back from the "New" to "In Progress".

<https://my.redmine.jp/demo/projects/demo/issues/13360/copy>

[illegible]

#5 - 2016-02-23 09:34 - yoshinobu yoshida

excuse me...

#6 - 2016-03-08 03:05 - yoshinobu yoshida

answer please...

#7 - 2016-03-13 14:15 - Toshi MARUYAMA

I cannot reproduce on vanilla Redmine 3.2.

#8 - 2016-03-14 04:51 - Go MAEDA

Toshi MARUYAMA wrote:

I can reproduce on the latest trunk (3.2.1.devel.15244). Maybe it is caused by screen refresh when the tracker field is changed.

#9 - 2016-03-14 09:06 - yoshinobu yoshida

thanks.
it is bug? or specification?

#10 - 2016-03-15 14:51 - Toshi MARUYAMA

I can reproduce on vanilla Redmine 3.2 if "Default status"es of copy src and dest tracker are different.

realy?
I could reproduce on vanilla Redmine 3.2 even if "Default status"es of copy src and dest tracker are same.
~~However, if status of src and "Default status" of desc are same, cannot reproduce.~~

I want know whether the bug or specifications, because there is a need to fix my plugins ASAP.
Also if it is bug, which version do you fix it?

Best regards.

#12 - 2016-03-16 05:18 - Toshi MARUYAMA

- Status changed from New to Needs feedback

"I can produce" and "I cannot produce" is not constructive.
Please explain more details of your condition.

Sorry, this sentence was my misunderstanding.
Please forget.

OK, I will try.

#15 - 2016-03-17 05:43 - yoshinobu yoshida

Hi,

Does this patch has any problems?

I was wondering if you could teach me your knowledge.

```
diff --git a/app/controllers/issues_controller.rb b/app/controllers/issues_controller.rb
index 0618569..37c8c36 100644
--- a/app/controllers/issues_controller.rb
+++ b/app/controllers/issues_controller.rb
@@ -428,7 +428,7 @@ class IssuesController < ApplicationController
     @issue.start_date ||= Date.today if Setting.default_issue_start_date_to_creation_date?

     attrs = (params[:issue] || {}).deep_dup
-    if action_name == 'new' && params[:was_default_status] == attrs[:status_id]
+    if action_name == 'new' && params[:was_default_status] == attrs[:status_id] && !params[:copy_from]
       attrs.delete(:status_id)
