Target version:	6.0.0			
Resolution:	Fixed			

Description
We have localised decimal separators for times in CSV exports #1372, this isn't used for times in the web UI though.

Revision 22593 - 2024-01-04 08:01 - Go MAEDA

Support localized decimal separators for hours in the web UI (#21677).

Patch by Go MAEDA (@maeda).

History

#1 - 2016-01-08 13:08 - Felix Schäfer

- File 21677-localised_decimals_in_web.patch added

The attached patch will change all hours in the web UI to use the localised decimal separator.

I first wanted some feedback so I haven't taken care of adapting the tests for now.

Should this be interesting for core Redmine, we should also discuss if Floats should also use the localised decimal separator or not.

#2 - 2016-02-06 04:27 - Toshi MARUYAMA

I don't have any thought because Japanese decimal separator is ".".

#3 - 2016-02-13 03:40 - Toshi MARUYAMA

- Related to Feature #22024: Support localized decimal separators for float values added

#4 - 2016-02-13 03:40 - Toshi MARUYAMA

- Category changed from UI to I18n

#5 - 2024-01-04 08:08 - Go MAEDA

- Subject changed from Use localised decimal separator for hours in the web UI to Support localized decimal separator for hours in the web UI

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Target version set to 6.0.0

- Resolution set to Fixed

Implemented the feature in r22593.
