- Status changed from New to Needs feedback
- Priority changed from High to Normal

At first, please try again without any plugins.

If the problem persists, could you provide a part of log/production.log when the error occurred?

We must use contacts plugin (redmine crm pro: <http://www.redminecrm.com/projects/crm/pages/1>) to use send mail and attachment.

The reason why I asked you to uninstall all plugins is to isolate the cause of the error.

If you cannot uninstall plugins even temporarily, please contact authors of plugins.

I talked with authors of plugin about this problem, and received the response:

Sorry to say this is known problem, we are working on fix for it right now and hope to include it into the next plugin's release.

#5 - 2016-02-13 04:39 - Go MAEDA

- *Status changed from Needs feedback to Closed*
- *Resolution set to Invalid*

Thanks for the feedback.
It has become clear that the problem is caused by plugins, I am closing this issue.
