Redmine - Feature #2175

Support removal of files from document with multiple files

2008-11-13 12:10 - Wolfgang S. Kechel

Status:	Closed	**Start date:**	2008-11-13
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Documents	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Invalid		

Description

After creating a document and adding a second file, the file can not be removed. If the wrong file has been selected in the file selection box there is no way to correct this issue by removing the file entry for that document.

History
