Redmine - Patch #22278

Revision Graph and Table should work with vertical-align: middle

2016-03-17 15:53 - Gregor Schmidt

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**

Category:	UI		**Estimated time:**	0.00 hour
Target version:	3.2.2			

Description

The revision list and the Raphael based graph next to it, are currently assumed to be vertical-align: top, i.e. the dots representing the commits are always positioned at the top of the table cell. This is a limitation for theme authors. Planio e.g. restyled the table to use vertical-align: middle but now the dots are misplaced.

The patch attached inspects the currently used css properties to properly calculate the dot's position. The patch is targeted at current trunk r15251.

Sure, here we go!

For "educational purpose" I've created a simple theme with the following application.css

```
@import url(../../../stylesheets/application.css);

table.changesets td {
  vertical-align: middle;
}
```

Using this theme and the current Redmine trunk, I get the following revision table

theme-without-patch.png
Using the patch, I get the following

theme-with-patch.png
while the default theme still looks as expected

default-with-patch.png

This example theme does not make a lot of sense on its own. It was just created for testing. But e.g. Planio's new design uses vertical-align: middle for its tables. (Planio already has the patch applied.)

#3 - 2016-03-25 13:57 - Go MAEDA

- Target version set to 3.2.2

Thanks, I understand.
Setting target version to 3.2.2.

#4 - 2016-04-03 14:29 - Jean-Philippe Lang

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

Committed, thanks.
