Redmine - Patch #22296

Add collision option to autocomplete initialization

2016-03-21 12:39 - Felix Gliesche

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:	Jean-Philippe Lang	**% Done:**	0%
Category:	UI - Responsive	**Estimated time:**	0.00 hour
Target version:	3.2.2		

Description

If an issue has a long title and is being referenced as related issue on mobile phones, it can break the layout:

before.jpg
By adding the option to handle collision to the jquery ui's autocomplete initialization call, we can avoid this unwanted behaviour:

after.jpg
You can find the docs for the possible options here: https://api.jqueryui.com/position/

Attached you will find the corresponding patch.
