Description

In current versions of Redmine, users can set 'private' flag when they add new notes, but they don't have any way of updating the flag of existing notes.
I have made the patch, enable to updating `private_notes` property on journal update form.

Interesting feature. But I think "Set notes as private" permission should be checked in JournalsController when updating "private" flag.

Thank you for pointing out the not implemented of permission-check.
I added the permission-check, and re-created the patch.
(Compatible the latest trunk r15361)

#4 - 2016-04-28 11:34 - Wim DePreter

+1, and duplicated by #12706

#5 - 2016-04-30 03:19 - Go MAEDA

- File cannot-set-private-to-public.mp4 added

Thanks for submitting a new patch. I confirmed that permissions are properly checked when updating the flag.

But I am having some trouble setting private note to public. I cleared "Private notes" check box and saved it, but the note still remains in private.
Please see the attached video: [cannot-set-private-to-public.mp4](#)

Thank you for pointing out my patch's bug. I confirmed same trouble on my environment too...
I Fix the bug, and re-created the patch. Could you please try again the new patch?

- Is duplicate of Feature #12706: Ability to change the private flag when editing a note added

#9 - 2016-07-03 16:26 - Go MAEDA

- Target version set to 3.4.0

It looks good to me. Setting target version to 3.4.0.

#10 - 2016-07-10 13:16 - Jean-Philippe Lang

- Status changed from New to Closed

#11 - 2016-07-10 13:17 - Jean-Philippe Lang

- Assignee set to Jean-Philippe Lang

- Target version deleted (3.4.0)

Thanks for the patch. I've made a few changes after that.
Removing it from 3.4.0 as the feature is tracked in [#12706](#).
