<b>Description</b>			
<p>Not only Sat. and Sun don't work. For example. 2016-06-09 is the Dragon Boat Festival of China. That mean's Chinese don't work from 2016-06-09 to 2016-06-11, but they have to work at 2016-06-12 (Sunday). So, I hope admin can set which non-workday need to convert workday , and which workday don't need work. And make it effective In gantt view, or calculate workdays.</p>
