

Redmine - Defect #23019

Markdown doesn't recognize mails

2016-06-08 18:19 - kay rus

Status: Confirmed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Text formatting	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	
Description	
Redmine hides this email in markdown: <a_bc@def.com>	
But it doesn't hide this: <abc@def.com>	

History

#1 - 2016-06-08 18:30 - Toshi MARUYAMA

- Category set to Text formatting

#2 - 2016-06-30 13:10 - kay rus

<https://github.com/vmg/redcarpet/issues/402>

#3 - 2017-06-04 05:38 - Go MAEDA

The latest version of Redcarpet still have this problem (we upgraded Redcarpet to 3.4.0 in r16583).

#4 - 2018-02-09 19:15 - Marius BALTEANU

- File *markdown_emails.png* added

- Status changed from New to Confirmed

Redmine is not affected by the respective issue because we have `no_intra_emphasis: true` and the emails with `_` are recognised correctly. Please see

the below screenshot.

The issue with `<a_bc@def.com>` looks to be from the same Redcarpet gem, the text is filtered out because it is recognised wrongly as HTML tag.

markdown_emails.png

Rails console:

With `:filter_html => true`:

```
irb(main):012:0> Redcarpet::Markdown.new(Redmine::WikiFormatting::Markdown::HTML.new(:filter_html => true, :hard_wrap => true),
autolink: true, no_intra_emphasis: true).render("<a_bc@def.com>")
=> ""
```

With `:filter_html => false`:

```
irb(main):013:0> Redcarpet::Markdown.new(Redmine::WikiFormatting::Markdown::HTML.new(:filter_html => false, :hard_wrap => true),
autolink: true, no_intra_emphasis: true).render("<a_bc@def.com>")
=> "<p><a_bc@def.com></p>\n"
```
