Could you describe use cases of the changes?

#2 - 2016-06-24 09:56 - okkez _

In Redmine 3.3.0, we cannot customize search result (app/views/search/index.html.erb) at all.
I want to add new query parameter `orderby` or `sortby`.
And `Redmine::Search::Fetcher` cannot handle extra query parameters sush as `orderby` or `sortby`.
I want to use extra query parameters in my plugin that customizes `Redmine::Search::Fetcher`.

#3 - 2016-06-24 10:49 - Go MAEDA

- Target version set to 3.4.0

Thanks for the explanation. Setting target version to 3.4.0.
