

Redmine - Defect #23183

LDAP password policy not checked when changing password

2016-06-28 09:36 - Taron Asatryan

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	LDAP	Estimated time:	0.00 hour
Target version:		Affected version:	2.5.3
Resolution:			
Description			
<p>Redmine has been configured to authenticate against LDAP and everything works fine. A password policy has been implemented in LDAP to ensure password complexity, expiration, etc. However, when LDAP user changes his/her password from Redmine, no complexity check is taking place.</p> <p>Is there any solution to this problem?</p>			

History

#1 - 2016-06-28 13:30 - Toshi MARUYAMA

- Status changed from New to Needs feedback

AFAIK, Redmine core does not provide changing LDAP password ([#5690](#)).
