Description

The 'email' field of the lost password page (account/lost_password) is case-sensitive. However, email addresses are generally treated as case-insensitive.

Thus if an for email for a Redmine user is stored as John.Doe@example.com, but John Doe types john.doe@example.com into the 'email' field of the Lost password page, he is told "Unknown user."

Associated revisions

Revision 2122 - 2008-12-12 13:07 - Jean-Philippe Lang

Makes User.find_by_mail case-insensitive (password reminder #2322, repo users mapping).

History

#1 - 2008-12-12 13:06 - Jean-Philippe Lang
