

## Redmine - Feature #23306

### Support for authentication sources in REST API

2016-07-12 14:39 - Roger Mårtensson

<b>Status:</b> New	<b>Start date:</b>

<b>Category:</b> REST API	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> Would be nice to have a way to get a list of authentication sources with the REST API. Especially since auth_source_id is a input when creating a user. Then one doesn't have to have access to the database to get which id to use.
