<b>Target version:</b>			
<b>Resolution:</b>	Duplicate		
<b>Description</b> <p>Redmine issue categories let you organize issues. Being able to auto-assign new issues to a specific user based on the chosen category is great.</p> <p>But these categories are set for the whole project. What if these categories should apply to one specific tracker?</p> <p>This plugin allows you to specify a tracker for each category. Making the issue category list shorter, the issue form is cleaner and it helps the user to avoid mistakes.</p>			
<b>Related issues:</b> <p>Is duplicate of Redmine - Feature #9306: Per-tracker issue categories</p>
