

Redmine - Defect #24020

Importing csv fails when using data containing bullet character, No error message in the UI, no reason is presented for the crash

2016-10-08 13:35 - Adrian Moisa

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.0
Resolution:	Cant reproduce		
Description			
<p>All you have to do to reproduce this bug is to import the following csv file. In the import form, just match Subject with Subject column and chose Tracker -> Feature.</p> <pre>"Subject", "Start_Date" "Test1 test", "9/7/2016" "Test2 • test", "9/7/2016"</pre> <p>The only clue available to what did fail is the following console message, which is not to much to get going:</p> <pre>POST http://localhost:3000/imports/36ed0f56e6db80daaaf6dfec4042eb93/run.js 500 (Internal Server Error)</pre> <p>I had to trim down my csv file until I managed to exclude the error, and it looks like the bullet character is the culprit. Maybe other UTF characters have the same issues, I didn't test.</p>			

History

#1 - 2016-10-08 13:36 - Adrian Moisa

Also no, logs are printed when this bug happens.

#2 - 2016-10-08 19:44 - Jean-Philippe Lang

- File *Image1.png* added

- Status changed from *New* to *Needs feedback*

Works for me, please read [SubmittingBugs](#) and provide what you have in your application log.

Import issues

2 items have been imported:

- [Feature #17680](#): Test1 test
- [Feature #17681](#): Test2 • test

[View all issues](#)

#3 - 2024-08-30 11:19 - Go MAEDA

- Status changed from *Needs feedback* to *Closed*

- Resolution set to *Cant reproduce*
