

Redmine - Feature #2416

{background:color} doesn't work in text formatting

2008-12-30 07:18 - Chaoqun Zou

Status:Closed

Priority:Normal

Assignee:Jean-Philippe Lang

Category:Text formatting

Target version:1.4.0

Resolution:Fixed

Start date:2008-12-30

Due date:

% Done:0%

Estimated time:0.00 hour

Description

```
table{border:1px bordercolor:darkblue}.
|_.1|_.2|_.3|_.4|
|a|b|{background:#ddd}.c|d|
|e|f|g|{background:#ddd}. Grey cell|
```

should looks like the table below, but in the current devel version([r2202](#) tested), the background color cann't be displayed.

1	2	3	4
a	b	c	d
e	f	g	Grey cell

Revision 8860 - 2012-02-12 15:00 - Jean-Philippe Lang

Allows custom styles in textile formatting using a white list of styles (#2416).

History

#1 - 2008-12-30 10:42 - Jean-Philippe Lang

- Status changed from New to Resolved
- Resolution set to Wont fix

Textile inline styles were disabled in [r2192](#) for security reasons.

If you really need this feature and don't fear XSS attacks, then have a look at: [source:trunk/lib/redmine/wiki_formatting/textile/formatter.rb@2192#L33](#)

#2 - 2008-12-30 16:16 - Chaoqun Zou

I'm not familiar with XSS. And does the code below still looks like a vulnerability?

[...]

#3 - 2008-12-30 17:12 - Jean-Philippe Lang

Yes. It looks like. Example stripped and fix committed in [r2212](#).

#4 - 2008-12-31 11:40 - Jean-Philippe Lang

- Status changed from Resolved to Closed

#5 - 2008-12-31 16:43 - Chaoqun Zou

I have found a textile reference that says:

Developers can easily include Textile in any web application that accepts user input for display on web pages. Textile supports UTF-8 input, and produces valid XHTML. A "Restricted" mode is available for processing input from untrusted users, where invalid input and XSS attacks are a risk.

Maybe you would like to have a look at: <http://thresholdstate.com/articles/4312/the-textile-reference-manual>

#6 - 2012-02-12 15:13 - Jean-Philippe Lang

- Tracker changed from Defect to Feature
- Subject changed from {background:color} doesn't work in the textile field of wiki or issue page to {background:color} doesn't work in text formatting
- Category changed from Wiki to Text formatting
- Assignee set to Jean-Philippe Lang
- Target version set to 1.4.0
- Resolution changed from Wont fix to Fixed

The following white list of styles is now allowed in text formatting ([r8860](#)): color, width, height, border, background, padding, margin, font, text and their variations (eg. border-left, ...). Malformed styles are filetered as well.

```
table{background:#afa}.
|_.1|_.2|
|{background:red; color:white}. Red cell|d|
|g|{background:#ddd}. Grey cell|
```

Displays:

1	2
	d
g	Grey cell

#7 - 2012-07-18 13:06 - Keats .

the FAQ points there but it's not working for me.

steps

- create a wiki
- paste the table example

```
table{background:#afa}. |_.1|_.2| |{background:red; color:white}. Red cell|d| |g|{background:#ddd}. Grey cell
```

is seen on the the wiki

#8 - 2014-02-13 09:51 - Ivan Samygin

I noticed that there must be an empty line before your table markup to get it work.
