Status:	Closed	Start date:	2008-12-31
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
<pre>assert_tag :tag => 'div', :attributes => { :class => /error/ }, :content => /can not be annotated/ leads to an error .. should use the flash assertion assert flash[:error], 'can not be annotated'</pre>			

History

#1 - 2009-01-03 14:28 - Jean-Philippe Lang

- Status changed from New to Closed

```
assert flash[:error], 'can not be annotated'
```

The assertion passes but it doesn't do what you expect.

You may want to read the doc of the assert method:
<http://www.ruby-doc.org/stdlib/libdoc/test/unit/rdoc/classes/Test/Unit/Assertions.html#M004506>

Anyway, I don't get any error. So please post the error/failure log.
