

Redmine - Patch #24281

Workflow editing shows statuses of irrelevant roles

2016-11-07 10:42 - Jens Krämer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:	3.4.0		

Description

When 'Only display statuses that are used by this tracker' is selected (which is the default), the statuses of Workflow transitions that are attached to Roles where Role#consider_workflow? returns false are still shown.

The first patch changes a test case to illustrate the problem by creating a role with workflow transitions but no issue add/edit permissions, second patch adds proper filtering for the status array.
