<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Importers	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	2.5.2
<b>Resolution:</b>	Invalid		
<b>Description</b>			
<p>First of all, sorry for my English. I am using migrate_from_trac.rake for migration and my situation is as follows. I have to migrate 5 or more trac to a redmine. My problem arises when I am going to migrate the second trac. I can see the second issues but not the first ones. I have noticed that the states of the issues of the first trac are erased and those of the second are inserted.</p> <p>Is that already solved? From already thank you very much for your time</p>			

#### History

##### #3 - 2016-12-18 04:19 - Mischa The Evil

- Status changed from New to Closed
- Priority changed from High to Normal
- Resolution set to Invalid
